

WRITE YOUR ELECTED OFFICIALS

Write your state and local elected representatives. Tell them you want lung cancer moved to the top of their health agenda. Share your story about why lung cancer is important to you and explain why you are writing. Whether you are asking for a Proclamation in your state to declare November Lung Cancer Awareness Month, asking them to support important legislation, or the importance of raising awareness about the disease - make your voice heard!

Use the Senate Caring Ambassadors Program “Lung Cancer By The Numbers” Advocacy Map as a tool. The map will show you incidence/death for your state to share.
