

Lung Cancer  
**CHOICES**  
4th Edition

## Acknowledgments

The Caring Ambassadors Lung Cancer Program is profoundly grateful to the authors of the book for their dedication, generosity, time, and expertise. Without their commitment to this project, we would be unable to offer this valuable resource to the lung cancer community.

Like a family, the Caring Ambassadors Lung Cancer Program has a core of support upon which it stands and draws on for strength. *Lung Cancer Choices*, 4th Edition would not be possible without the love and generosity of the Republic Financial Corporation and our board members, Randy Dietrich, Rob Gleser, MD, Chuck Singleton, Jessica Steinberg and Navin Vij, MD. Thank you for all you do for the Caring Ambassadors Program and the community. We would also like to thank the patients and caregivers who took part in two focus groups to review the 3rd Edition of *Lung Cancer Choices*. The feedback and insights you provided were invaluable, and we genuinely appreciate the time and effort you provided to us.

Finally, the Caring Ambassadors Lung Cancer Program acknowledges the lung cancer community. The people who bravely face the challenges of living with lung cancer, the loved ones who offer them support and comfort. The healthcare providers who work to provide the best possible treatment options. And the advocates who work tirelessly to give hope and support. Together we can improve the future for those at risk for developing lung cancer and those living with the disease. We are proud to work side-by-side with you to meet the community's needs.

Thank you to our sponsors for their generous support!
